

Asif Uddin Ahmed Hemel

Senior Software Engineer | 4.5+ Years | hemel18681.netlify.app

Dhaka, Bangladesh

UTC+6

SUMMARY

Senior Software Engineer with 4.5+ years of experience building and scaling enterprise-grade web applications. Currently leading multiple projects, driving feature development, modernizing legacy systems, and mentoring team members. Highly skilled in Angular, TypeScript, JavaScript, .NET, SQL/NoSQL, and AWS, with a strong focus on performance, maintainability, and clean architecture.

EXPERIENCE

Enosis Solutions — Senior Software Engineer

December 2024 - PRESENT (1+ Years)

1. We're improving our Angular project's UI/UX and performance by 30-40% using actions, effects, reducers, RxJS, NgRx, and signals for state management.
2. Led SQL to NoSQL database migration, improving response time by 70%.
3. Updated Angular and other third-party packages to provide better support, which also updated the build process time by more than 150%.
4. Implemented the Help and Support Feature to provide a better user experience, which resulted in a raise of 20% user count.

Enosis Solutions — Software Engineer

December 2022 - November 2024 (2 Years)

1. Redesign a file manager system with features like folder/file creation, navigation, renaming, copy-paste, extraction, bookmarking, sharing, and deletion. Gives a 120% better response time than the previous.
2. Developed a feature that analyzes past years' data to generate future probable results, enhancing predictive insights and decision-making efficiency, helping the clients to decide on their work by 50%.
3. Developed a map feature for users to design elements and retrieve area details, giving about 35% more accurate results now.
4. Fixed 100+ bugs, ensuring pinpoint accuracy and enhancing software stability, making it more powerful for profit generation and overall efficiency.

Implevista — Junior Software Engineer

July 2021 - November 2022 (1.5 Years)

1. Redesigned banking software, achieving a 200%+ performance boost and 100% accurate reporting across 300+ branches.
2. Developed a subscription-based product management tool with integrated HR features. The software has a 1.5% monthly growth rate and increases client

SKILLS

JavaScript (4.5+ years)
TypeScript (3.5+ years)
.NET (1.5+ years)
Entity Framework (1.5+ years)
Angular (4.5+ Years)
SQL (4.5+ Years)
NoSQL (2.5+ Years)
AWS (3.5+ Years)
RxJs (3+ Years)
NgRx (3+ Years)

AWARDS

- Presenter at International Workshop on Frontiers of Computer Vision 2022.
- Problem Setter of IUBAT Intra University Programming Contest 2022
- Champion of IUBAT Intra University Programming Contest 2021
- Honorable Mention at ICPC Dhaka Regional 2020
- Honorable Mention at NCPC 2020
- Honorable Mention at CSE Battle of Intellects, 2019
- Outstanding Accomplishments Award on ICT Olympiad, JU 2019
- Honorable Mention at Cybernauts National Programming Contest 2019

profits through financial tracking and analysis.

3. Created an image editing tool with custom options to modify and save detailed images for future editing.

- Excellence Mentorship at CSE, IUBAT.
- Award of Academic Excellence, CSE, IUBAT

EDUCATION

IUBAT - International University of Business Agriculture and Technology, Dhaka – BCSE

January 2018- December 2021 (4 Years)

PROJECTS

Social Media Platform— Senior Software Engineer - 4 Team Members

December 2022 – Present (1+ Years)

Tech Stacks: [Angular, Node JS, TypeScript, SQL, AWS, RxJS, NgRx]

[A scalable social media platform designed to support a large user base, with performance and reliability as key priorities. The platform enables content sharing and user engagement through follow, like, comment, live streaming, and fundraising features, along with integrated e-commerce functionality for buying and selling products.]

Asset Management — Senior/Software Engineer - 8 Team Members

December 2022 – Present (3.5+ Years)

Tech Stacks: [Angular, Node JS, TypeScript, SQL, NoSQL, AWS, RxJS, NgRx]

[This project involved asset management, enabling clients to effectively categorize and oversee their resources. It included a map feature and the capability to forecast resource outcomes for the upcoming years.]

File Management — Senior/Software Engineer - 8 Team Members

December 2022 – February 2025 (2 Years)

Tech Stacks: [Angular, Node JS, TypeScript, SQL, NoSQL, AWS, RxJS, NgRx]

[This project focused on file management, allowing clients to organize their resource data. Key features included creating, navigating, renaming, copying, pasting, extracting, bookmarking, sharing, and deleting folders, files, etc.]

Banking Software — Junior Software Engineer - 6 Team Members

July 2021 - November 2022 (1.5 Years)

Tech Stacks: [Angular, .Net(Core), Dapper, SQL]

[This banking project enables users to oversee client funds, encompassing account deposits, loan management, and DPS functionality.]

Product Management — Junior Software Engineer - 6 Team Members

July 2021 - November 2022 (1.5 Years)

Tech Stacks: [Angular, .Net(Core), Entity Framework, SQL]

[This product management software also includes HR management capabilities. It allows users to track product quantities, purchase and sale prices, and profit and loss margins.]

Conferences

International Workshop on Frontiers of Computer Vision 2022 - JAPAN

[Presented and participated in a research paper titled “**Human Hostility Detection through Visual Data Using Deep Learning.**” The study focused on identifying hostile human behavior from visual data to enable early detection and preventative intervention before harmful events occur. The work involved applying deep learning-based computer vision techniques for behavior analysis, dataset preparation, model training, and performance evaluation. The research highlights the potential of AI-driven surveillance and monitoring systems to improve public safety and threat prevention.]

Courses or Books

[Academic Problem Solve with C++](#) — Mentor

[This C++ problem-solving course covered various approaches to problem-solving, including how to analyze a problem, strategize solutions, and think creatively to find the best approach.]

[৫৫টি প্রোগ্রামিং সমস্যা ও সমাধান](#) — Editor

[This book contains 55 competitive programming problems of varying difficulty and category. Each issue includes a thorough discussion, instructions on approaching and solving it, and various test cases.]
